## FUNNY MOM THOUGHTS!

Today Mom went in a shoe store that sells only shoes, nothing else. A young girl with a tattoo and green hair walked over to Mom and asked, "What brings you in today, I looked at her and said, "I'm interested in buying a refrigerator."

She didn't quite know how to respond, had that deer in the headlights look. I was thinking about old age and decided that old age is when you still have something on the ball, but you are just too tired to bounce it.

When people see a cat's litter box they always say, "Oh, have you got a cat"

Mom just said, "No, it's for company!"

Employment application blanks always ask who is to be called in case of an emergency.

I think you should write, "An ambulance."

The older you get the tougher it is to lose weight because by then your body and your fat have gotten to be Really Good Friends!!

**Mile Markers – What's the Deal?**

US 1 is used to travel the islands of the Florida Keys.

Location: along the highway are expressed by Mile Marker numbers.

The ZERO Mile Marker is found in Key West. Mile Marker numbers continue to increase until the pass through the Monroe County line at Mile Marker 112, north of Key Largo. Look for small green signs with white numbers posted at each mile along US 1 (these used to be the original mile posts installed along the old railroad bed).

Special note: Mile marker references are commonly used in local addresses. When there is a B or O this denotes either Bayside (north-Gulf of Mexico side) or Oceanside (south-Atlantic Ocean side) location.

## DEAR MOM!!

They weren't in my pockets. Suddenly I realized I must have left them in the car. Frantically, I headed for the parking lot. My husband has scolded me many times for leaving my keys in the car's ignition. He's afraid that the car could be stolen.

As I looked around the parking lot, I realized he was right. The parking lot was empty. I immediately called the police. I gave them my location, confessed that I had left my keys in the car, and that it had been stolen.

Then, I made the most difficult call of all to my husband: "I left my keys in the car and it's been stolen." There was a moment of silence. I thought the call had been disconnected, but then I heard his voice. "Are you kidding me?" he barked, "I dropped you off!"

Now it was my turn to be silent. Embarrassed, I said, "Well, come and get me." He retorted. "I will: just as soon as I convince this cop that I didn't steal your damn car!" Too Funny!! :)

## THREE BOY SCOUTS OF AMERICA STAFF RECEIVE PHEONIX AWARD FOR HELPING SAVE A WOMAN IN CARDIAC ARREST

SCOUT KEY, FL – Monroe County Fire Rescue Trauma Star/EMS Division and Monroe County Sheriff's Office presented three Boy Scout of America (BSA) personnel with Phoenix Awards and Commendation awards for saving a 45-year-old woman who experienced sudden cardiac arrest on March 9, 2024 at the BSA Camp in Summerland Key.

The award recipients were recently certified in CPR and quickly resorted to their training. When she collapsed and became unresponsive, they called 9-1-1 and immediately began CPR and administered a shock with an AED that was located on the property. Their quick actions saved her life until a MCSO deputy arrived along with the MCFR crew. She was transported to Trauma Star and flown for definitive care in Miami.

“This is a perfect example of why bystander CPR and basic first aid training is so important,” said Division Chief of Trauma Star/EMS Andrea Thompson. “Bystander-initiated care drastically increases someone’s chances of survival.”

The Phoenix Award, named for the mythical bird who rises from the ashes unscathed, is presented to first responders who restore life to a patient who can return to a similar quality of life.

Monroe County’s UF/IFAS Extension Service offers American Heart Association CPR (Adult, Child, and Infant) and First Aid Certification courses. The CPR/First Aid combo course costs \$41. Participants receive an American Heart Association certification after completing the course.

## TAKE A CPR CLASS & SAVE LIVES!!

Please call Monroe County Extension to register for any of these courses or if you have questions 305-292-4501. MCSO Deputy Spencer Curry, left, MCFR firefighters; Roberto Costa, Brad Baird, Alfred Meneses, Camp Counselors; Katie Kuglin, Mick Norberg, and Jamie Bonnet.

# From the Nurse's Corner

by Stephanie Irvin R.N.

## May is National Skin Cancer Awareness Month

With over 5 million cases diagnosed in the United States each year, Skin Cancer is America's most common cancer.

Fortunately, skin cancer is also one of the most preventable forms of cancer. By sharing facts about the dangers of unprotected sun exposure and encouraging people to check their skin for warning signs, we can and will save lives.

### Get the facts about skin can cer.

- 1 in 5 Americans will develop skin cancer by the age of 70.
- More than 2 people die of skin cancer in the U.S. every hour.
- Having 5 or more sunburns doubles your risk for melanoma.

When detected early, the 5-year survival rate for melanoma is 99 percent

### Your Daily Sun Protection Guide

The sun sustains life and feels good. In small amounts it helps the body absorb Vitamin D, but if you allow your skin to be over-exposed, it can be your skin's worst enemy.

While every sunburn can increase your risk of skin cancer, it's not just those big days at the beach or ballgame that cause trouble. Each time you run out to get the mail, walk the dog or commute to work without sun protection also adds to the damage that can lead to skin cancer (as well as leathery skin, dark

spots and wrinkles). No single method of sun defense can protect you 100% but the best path to beautiful, healthy skin is to adopt as many of these steps as possible into your lifestyle, and make them daily habits everywhere you go, all year long.

**Cover it up...**plan your days in the Sun and do not allow your skin under any condition to be burnt.

**Play in the shade...**Pick shady spots, bring umbrellas and tents to the beach.

**Know your sunscreen...** Majority of sunscreens can be very toxic, not only to you, but to the environment. Know the right ones to use and when NOT to

use them at all. **Shield your babies...**Best practice is to keep them out of the heat when the sun is the hottest between 10:00 a.m. and 4:00 p.m. everyday.

**Say no to tanning beds...**just the worst..

**Early detection...**Know what to look for and if you don't, ask a doctor!

The skin is your body's largest organ. Make sure to take great care of it. Keep it hydrated and protected. Don't sunburn and if you get a sunburn, treat it with cool water rinses and lots of aloe.

From all of us here at *Time Out Magazine* have a wonderful and safe summer!!
